INFORMATION AT YOUR FINGERTIPS

In today's world of connectivity, a major investment by Bullworthy has been Protean. Protean is a Customer Relationship Management (CRM) application that offers all Bullworthy customers a multitude of benefits. These include real time job management, invoice management, contract control and scheduling, historical equipment reports and live financial reporting of our customers capital equipment. It will allow any Bullworthy engineer remote access to all service records, maintenance schedules and historical reports specifically applicable to each piece of equipment whilst on site using their mobile work-tablet. Once Bullworthy activate the customers online portal they can access the documents 24/7, 365 days a year, allowing our customers and Bullworthy to be entirely paper free.

PROVIDING A SERVICE YOU CAN RELY UPON

Bullworthy understand the level of urgency when breakdowns occur, they impact greatly on the operation of any workshop. All of Bullworthy's skilled and GEA accredited engineers are geographically based to ensure we are able to respond to our clients needs with speed and reliability. As well as skilled engineers, we also have trained administrators and technical support engineers based at our head office to ensure your calls and queries are dealt with quickly and efficiently.
