

SPOA3T Two Post Lift

Introducing the Rotary SPOA3T two-post lift. The 3T offers maximum clearance width with minimal external dimensions. The asymmetric column and support arm design also allow a large reception area capable of a flexible pick-up range from SMART to large vans (e.g. VW T6 long.) The control system is available in a manual and an electric version, as well as different column heights.

- Fully hydraulic.
- Asymmetric design.
- 3.5 tonne capacity.
- Baseless design.
- Standard or sports car setting.
- 3 years manufacturer warranty.

MODEL	WIDTH	HEIGHT	CAPACITY
