T1042LP

TWO POST LIFT

T1042LP TWO POST LIFT

The Technique T1042LP features state of the art APS (Accurate Parking System) technology which allows the operator to park the vehicle at any height and lower the vehicle safely and accurately directly from that position. With the unique low profile, heavy duty arm kit, this lift is perfect for performing any type of repair and maintenance.

- Specialist low-profile sports car arm as standard.
- Base plate type for low ceiling workshops.
- ABS control box with rubber gasket sealing.
- Durable cylinders in each column carry with anti-surge valves.
- Arm locks engage and disengage automatically.
- Door protection pads to prevent possible damage when opening doors without caution.
- Pre-fixed hydraulic pressure prevents overloading operation.

Optional 'H' base frame for poor flooring.

Specialist low-profile sports arm.

Strong carriage and arm structure.

4 x 100mm Casting height adaptor.

Round screw-up lifting pad.

Swing arm lock.

Chain carriage.
